

### **SPECIFICATION AMENDMENTS:**

Please amend the specification as indicated:

Please replace the Abstract with the following paragraph:

Methods and systems for image processing are provided. A particular method includes receiving a video object plane (VOP) and decoding the received VOP. The method also includes storing an order number of the decoded VOP at a P-VOP queue when the received VOP is a predictive coded VOP (P-VOP). The method further includes storing the order number of the decoded VOP at a first available location of a display ordered read queue when the received VOP is not a P-VOP.
